EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Craig Summerfield on August 24, 2004.

The application has been amended as follows:

In claim 48, line 10, --without preparatory manual looping of the suture—has been inserted after the phrase “forming a knot in the suture” and before the period at the end of the sentence.

Allowable Subject Matter

1. Claims 48-82 are allowed.
2. Regarding Claim 48, the following is an examiner's statement of reasons for allowance:
U.S. Patent No. 5,306,281 to Beurrier requires the user of the suturing device to manually loop suture in preparing the device to suture body tissue. Regarding Publication No. US 2002/0116011 A1 to Chee Chung et al., Chee Chung does not teach or disclose forming a knot *automatically*. Although Chee Chung does disclose forming a knot, he does so through manipulating his machine in a non-automatic way.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
